

Asilbek Boboev

asilbekboboyev98@gmail.com — linkedin.com/in/asilbekboboyev — github.com/AsilbekGit

EDUCATION

- Master of Science**, *Computational Data Science*, Khalifa University Aug 2026 – Present
Coursework: Advanced Statistical Inference, Machine Learning, Model Estimation,
Data Science and Generative AI, Seminar in Research Methods
- Bachelor of Science**, *Software Engineering*, New Uzbekistan University Oct 2021 – May 2025
Coursework: Machine Learning, Linear Algebra, Probability Models GPA: 3.66/4.5

RESEARCH PROJECTS

- Energy-Saving Automation and AI-Based Scheduling for Urban Rail Transit Systems**
Funded by Uzbekistan–China Joint Research Grant (IL-8724053120) Sep 2025 – Present
github.com/AsilbekGit/Train-Speed-profile-optimization-using-RL
- Conducted research on AI-based methods for energy-efficient train scheduling.
 - Developed graph-based and scalable simulation models for railway systems.
 - Validated energy-saving strategies in collaboration with Uzbekistan Railway authorities.
- Plant Disease Detection Using Deep Learning** Sep 2024 – May 2025
Bachelor's Thesis
- Designed and implemented CNN-based models for automated plant leaf disease classification.
 - Applied transfer learning (VGG16, ResNet50, EfficientNetB0) to improve generalization.
 - Developed a multi-output framework for joint disease type and severity prediction.

EXPERIENCE

- Teaching Assistant**, *New Uzbekistan University* Jan 2026 – Aug 2026
- Taught Introduction to Programming and supported students during lectures and practical sessions.
 - Assisted students with programming assignments, debugging, and fundamental problem-solving concepts.
- Research Assistant**, *New Uzbekistan University* Sep 2025 – Jan 2026
- Conducted reinforcement-learning-based optimization of train speed profiles to reduce energy consumption.
 - Built simulation pipelines using real-world rail trajectory, gradient, and curvature data.
 - Implemented and evaluated Q-learning variants and deep reinforcement learning models.
- Network Engineering Intern**, *Huawei Uzbekistan* Apr 2025 – Aug 2025
- Completed 80+ hours of training on 2G–5G mobile network architectures.
 - Configured and analyzed DWDM systems and Huawei OSN 9800 (100G).
 - Performed network monitoring and diagnostics using NetCareCloud.

PUBLICATIONS

Davronbekov D., Juraeva N., **Boboev A.** (2024). *Advanced Applications of Machine Learning Techniques in FOITS*. Proceedings of the 4th International Conference on Technological Advancements in Computational Sciences (ICTACS), pp. 773–778. DOI: 10.1109/ICTACS62700.2024.10840715

SUMMER SCHOOL

DGIST Summer School on Deep Learning and Computer Vision

Jul 2025

Daegu Gyeongbuk Institute of Science and Technology (DGIST)

github.com/AsilbekGit/Hangul-Recognition-Model

SKILLS

Python, Java, PyTorch, Reinforcement Learning, CNN, Linux, Git.
